RE: A Solution to the Oil and Gas Crisis

Dear _____:

I am deeply concerned about our dependence on foreign oil and the consequences we are facing as a nation for this dependence.

The current oil price crisis is adversely affecting each and every American, myself and my family included.

It is time for action. Here are the steps I would like to see taken immediately to save us from even higher fuel costs.

- 1.) DRILL FOR OIL NOW! Approve fast-track legislation to begin extracting oil and natural gas from the ANWR, the OCS and deep waters in the Gulf of Mexico, thus reducing foreign dependence.
- 2.) REFINE OIL NOW! Approve fast-track legislation to build at least four new, strategically placed oil refineries throughout the U.S. along with building new pipeline infrastructure to deliver finished product.
- 3.) STRONG DOLLAR NOW! Demand the federal government reduces our \$9.4 trillion national debt and deficits by cutting government spending. This will immediately strengthen the dollar and reduce inflation.

Thank you in advance for your efforts on our behalf.

Sincerely,
